PRODUCT NAME ROOFSHIELD FUNGICIDE WASH

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO CRITERIA OF WORKSAFE AUSTRALIA

UN NO.....: None Allocated
HAZCHEM...: None Allocated
D.G. CLASS: None Allocated
SUB. Risk.: None Allocated

PACK. GRP.....: None Allocated
POISON (SUSDP) NO: 5
E.G.P.....: Not Required
CAS No.....: None Allocated

IDENTIFICATION

Other Names: NONE

Uses: Fungicide wash for treatment of fibrous cement roofs and other surfaces prior to painting. Usually applied manually by brush or spray gun.

Physical Description / Properties

Appearance : Clear water thin liquid
Boiling Point : 100. C (water is solvent)
Melting Point : 0. C (" " ")
Vapour Pressure : 17 mm Hg @ 20.C
Specific Gravity : 1.00
Flash Point : Noncombustable
Flammability Limits : Not Applicable
Solubility in Water : Miscible with water

Other Properties:

Autoignition Temperature : Not Applicable
Rel Vapour Density : (Air = 1) < 1 Water
pH : 7 to 9
% Volatile by Volume : 96 - 98

Ingredients

<u>Chemical Entity</u>	<u>CAS Number</u>	<u>Proportion %</u>
benzalkonium chloride / phenyl phenol (proptiety)	Not Known	2 - 4
Water	7732-18-5	Balance
